“

*We all have a deep desire for our children to be properly prepared for the future. At the Mouratoglou International School, we offer children a school system that is unique in Europe. In addition to what parents provide, we give our student-athletes all the necessary tools to get the most out of life after school.*

***Since 1996, we have developed a personalized school system with adapted timetables, which has been proven to produce extremely good results.***

*With small classes supervised by passionate teachers, personal attention paid to each student, the possibility of learning several languages, and spending time in an international environment composed of 45 different nationalities, we do everything we can to offer students an environment conducive to success. A formula unique in Europe.*

*For over 20 years, the Mouratoglou International School's priority and duty has been to help our students reach their full potential and achieve their goals.*

*Each year, at the end of the school year, I look on with pride and emotion observing their progress and development.*

**PATRICK MOURATOGLOU**  
***Founder of the Mouratoglou International School***

”

#### ***Who is Patrick Mouratoglou?***

*Well known coach of Serena Williams, Patrick Mouratoglou wanted to build a place where sports enthusiasts would be able to reach their full potential, whatever their age, level of athletic ability and personal goals. He founded the Mouratoglou Academy in 1996 with this idea in mind.*

*Used by the greatest tennis champions for more than 20 years, the Mouratoglou method is based on personalized training and a focus on results.*

*Today, with its tennis academy, exceptional facilities and French and International schools, the Mouratoglou Resort has become one of the most renowned training and educational centers in the world.*

“

*The Mouratoglou International School is designed for **children looking to attend a school with a personalized curriculum** with an adapted timetable in an **environment tailored for success.***

# WHO ARE WE?

## OUR VALUES:

At the Mouratoglou International School, we have chosen a system that uses personalized support focused on the student's progression, in order to help him/her achieve excellence. Located in the 1<sup>st</sup> tennis academy in Europe, the Mouratoglou Academy, the Mouratoglou International School is based on these same principles. Teaching is based on the principles found in sports and top performance, such as hard work, rigor and determination.

SUCCESS / AMBITION  
PERSONNALIZATION / FULFILLMENT  
WELLNESS / RESPECT

## A MULTICULTURAL ENVIRONMENT:

With more than 45 nationalities represented, the Mouratoglou International School is also a place where tolerance, sharing and openness to the world are key values. Sharing daily life with children from all walks of life allows each student to experience new cultures and see things in a new light with every experience.

# OUR MISSION

## EXCELLENCE & WELL-BEING

Our school is open to all students with a desire to learn. Our mission is to support each child in a personalized way so that he/she can achieve his/her goals. Our timetable is built with flexibility, allowing each student to follow a complete educational program while feeding their passion for sports or the arts. This method creates the best conditions for learning and maintaining a balanced life. The adapted timetables also allow students to improve their foreign language skills, to take care of their physical health, thanks to adapted training programs, and to receive support from teachers to prepare them for the next step towards their academic careers in the United States, France or around the world.

## PERSONALIZATION & FULFILLMENT

Our goal is to guide and support each student, with passion and dedication, so that they push themselves to achieve their full potential. To do this, we have created a dedicated teaching team, bringing together qualified and experienced teachers and two directors with complementary international backgrounds.

## ONLINE TOOLS

As a school, we embrace the use of technology. Our students have access to several educational websites to build on skills taught in class. If needed, we have also developed a platform which allows students to attend courses remotely and through video conferencing. **To facilitate communication with parents, and pass on attendance and grades, we use an online gradebook.**

“ The Mouratoglou International School is far more than a school. It’s an international family. Teachers, students and parents work together to help everyone develop the potential and reach their academic goals through respect and by working together. ”

STÉPHANIE ANFOSSO,  
FRENCH SCHOOL DIRECTOR

ALEXIS DELISLE  
Class of 2020  
California Polytechnic State University

“

My 5 years spent at the Mouratoglou International School helped me develop in the best possible environment. Of course, there were challenging times, but the help of the teaching team, who wished us all the best, allowed me to overcome my struggles. Classmates and students from higher years helping each other was also very beneficial to achieving my goals. These classmates have become my friends, and these friendships from school will last forever.

”

THEO CHEVALERIAS  
Class of 2020  
Sciences Po Paris (The Paris Institute of Political Studies), France

“

My three years of school at the Mouratoglou International School have really helped me progress. The quality of teaching and small classes, which allow you to be close to the teaching staff, really contribute to students’ success. I will never forget the moments shared with my classmates.

”

ESTELLE DUDLE  
Class of 2021  
Ecole Hôtelière de Lausanne (EHL School of Hospitality), Starting 2021

“

At the Mouratoglou International School, we are a team. Teachers help us to continually progress and bring out the best in ourselves. I’m lucky to be part of this dynamic and multicultural family where performance, discipline and friendship come together. I’ll always have wonderful memories of my high school years.

“

*The 4 years spent in MTA have been ones of great growth for me, not only athletically, but academically as well. I enjoyed having small classes as I was always able to establish a connection with my teachers and seek their help without hesitation. I found that the academic program was effectively set up in a manner that allowed all of us student-athletes to succeed in both realms and learn to balance our lives. Needless to say, the entire experience prepared me for the challenging life of a varsity student-athlete in university.*

“

*I had a wonderful experience at Mouratoglou International School, during the 5 years that I was a student there. The faculty were always approachable, providing an interactive and enriching learning environment. From what started off as class discussions and group assignments turned into long lasting friendships. The school definitely helped me prepare for the academic rigor of higher education, and encouraged me to become the best version of myself.*

“

*The Mouratoglou International School gave me the opportunity to continue a solid education. They taught me to question everything around me, and everyday made me realize the power that being knowledgeable can have on this world. Before coming there, I was a girl from a provincial town in Italy, with an unclear perspective of the world. After these three years and thanks to the help of all the teachers and staff, I now have a sharper idea of the mark I am going to leave in this world and if I am now in the US following my dreams, it is a lot because of them.*
